Topic Journey –

As part of our “The Arts Come Alive!” curriculum lens, children will engage in two week mini projects geared around these areas of the Expressive Arts experiences:

Art - engaging with the work of Wayne Thiebaud, children to create their own art focusing on tone and shade. Children to then create 3D versions of his art.

Digital Art - using characters they have created, children to create digital animations using apps.

All this work will lead to the end goal of opening an art exhibition for our families to visit. In our Topic lessons, children will work towards organising this event, including the creation of exhibition pamphlets and posters. Children will also cook food for the event.

Welsh -Focus lessons.
